

INTERNATIONAL JOURNAL OF NUCLEAR DESALINATION - *IJND*

Editor in Chief

Prof. Dr. André MAÏSSEU

a.maisseu@wonuc.org

Volume 1, n°4, is published.

Summary

"Siting of nuclear desalination plants in Saudi Arabia, a seismic study"

M.S. Aljohani, A.F. Abdul-Fattah, A.I. Almarshad

pp 383-395

"Nuclear desalination and electricity production for islands"

Tran Dai Nghiep

pp 396-399

"The Pebble Bed Modular Reactor: Desalination challenges and options"

Dr Nicholls

pp 400- 410

"Prospects of Nuclear Desalination in Morocco"

Mohammed TABET

pp 411-415

"Towards a desalination initiative using cogeneration with an advanced reactor type and uranium recovered from Moroccan phosphoric acid production"

Michel Lung, C, Abdelaâli Kossir

pp 416-426

"Coupling strategies for desalination plants with gas cooled reactors »"

Uner Colak

pp 427-434

" Direct contact membrane distillation for nuclear desalination: Part I - Review of membranes used in membrane distillation and methods for their characterization"

M. Khayet, J.I. Mengual, G. Zakrzewska-Trznadel

pp 435-449

« Advances in Desalination Technology »"

Tom M. Pankratz

pp 450-455

"Water desalination price from recent performances : Modelling, simulation and analysis"

M. Metaiche, A. Kettab

pp 456-465

"A Preliminary Economic Feasibility Assessment of Nuclear Desalination in Madura Island"

S.H. Kim, Y.D. Hwang, T. Konishi, Hudi Hastowo

pp 466-476

"Nuclear desalination: Harnessing the Seas for Development of Coastal Areas of Pakistan"

Muhammad Saleem Ayub, Waqar Murtaza Butt

pp 477-485
